SureFresh WET TOWEL DISPENSER

Your best choice for health with complete disinfecting and sterilising functions.

SureFresh™ Wet Towel Dispensers produce fresh, disinfected, sterile, one-off wet towels to wipe away dust, grime and germs.

With their assured safety, SureFresh™ Wet Towel Dispensers provide a healthier and a better option as compared to traditional towels and normal napkins, paper or cloth.

These wet towel dispensers produce a wet towel after cutting, heating, spraying and rolling a paper towel made from 100% plant fibre. You can get a warm or a cold towel depending upon your choice.

SureFresh™ Wet Towel Dispensers are ideally suited for use in restaurants, hotels, cafés, banquet halls, cafeterias, offices and even homes.

Towel Roll

SureFresh towel rolls are environment-friendly since they are made from 100% plant fibre. These towel rolls are supersoft and caress the skin when wiped. Their excellent water absorption ability ensures an even moisture balance for maximum cleaning and freshness.

SureFresh towel rolls come in two variants:

- 50gsm in a 30m length
- 80gsm in a 20m length.
